BLANTYRE

Dear Sir/Madam,

**Application for Software Developer**

I am writing to apply for the Software Developer vacancy recently posted on jobsearchmalawi.com. With a degree in Business Information Technology (BIT) from the University of Greenwich, UK, obtained in 2019, and over two years of professional experience in software development, I am confident in my suitability for this position.

Through my years of experience analyzing company business processes and designing and developing required systems, I have honed strong skills in writing high-quality, scalable, and maintainable software code. I am proficient in various programming languages, including PHP, JavaScript, Java, and Python, and possess a solid understanding of web fundamentals such as XML and HTML.

Furthermore, I possess excellent knowledge and experience in designing and developing secure relational models, effectively mapping them into schemas using MySQL, SQLite, and PostgreSQL. I am also adept at communication, both written and verbal, and possess strong coordination skills that enable me to work effectively in diverse teams.

Please find my attached CV in support of my application, I am eager to leverage my skills and qualifications to contribute to the mission of the Malawi Bureau of Standards. I would welcome the opportunity to discuss how I can utilize my capabilities to benefit your institution in person. I am available for an interview at your earliest convenience and can be reached via my cellphone at (+265) 999 192 33 55 or via email.

Thank you for considering my application. I look forward to the possibility of contributing to your esteemed organization.

Yours sincerely,

Wilson Soza
